How much do YOU spend?

$5.00 a pack/can may not seem like much, but look at it over a period of time.

<table>
<thead>
<tr>
<th># of uses per day</th>

<td>$2,700.00</td>
<td>$27,000.00</td>
<td>$54,000.00</td>
</tr>
</tbody>
</table>

Figure it out for yourself

Compare the cost of smoking if you pay more or less than $5.00 a pack/can.

(Cost per pack/can) $\_________ / # of uses = $\_________ (Cost per use)

(Number of uses per day) \_________ X $\_________ (Cost per use) = $\_________ (Daily cost)

(Daily Cost) $\_________ X 7 days = $\_________ (Weekly cost)

(Daily cost) $\_________ X 30 days = $\_________ (Monthly cost)

(Monthly cost) $\_________ X 12 months = $\_________ (Yearly cost)

What would YOU do with the extra money?

If you currently spend $5.00 a day (one pack/can) and you stopped smoking for a year and put the money you saved ($1,800.00) in a mutual fund for 10 years at an interest rate of 10%, the money you saved would be worth $4,669.00. In 20 years it would be worth $12,109.00!!!
